TIME TO GET CORNY

No need to hike all the way to the Andes when you can get the perfect crunch, sweetness, and diversity of locally sourced bi-color corn that's needed for your dishes. It pairs perfectly with our locally grown mixed lettuces, which offer flavors ranging from grassy to nutty to earthy. Additionally, we have ready-to-use delicate fresh English peas, golden honey-like crisp watermelon, juicy in-season stone fruit, and much more for a delightful culinary experience.
