## DON'T PANIC, WEEKLY SPECIALS ARE HERE

As your trusted produce supplier, we are committed to bringing you the best quality produce year-round. With frigid air affecting local crops, we understand the importance of consistency in your business operations and menus. That's why we source and curate the best crops this time of year.

From artichokes that are in full swing to winter fruits that are at their peak season in South America, we have everything you need to keep your customers satisfied. We're right!

### ARTICHOKES OF ALL SIZES

After a semi-annual seasonal break, the California Artichoke harvest is in full swing. A bountiful harvest has led to a favorable market. We're observing increased availability as prices go down. Riviera has a complete range of Artichoke sizes in stock and ready for delivery.

Andy Boy has finally gotten into the Gem Lettuce game.

Many chefs hold strong opinions about which packer produces the best Gem Lettuce. Church Bros Gem Lettuce has often been the fan favorite.

However, production issues at Church have led to an unstable market and numerous supply gaps.

**Andy Boy informs us that their Baby Gem Lettuce will be consistently available year-round.**

With the introduction of Andy Boy Baby Gem, hopefully, those shortages will become a distant memory. Andy Boy Baby Gem offers the same tight heads with crisp, pale, sweet centers and minimal waste from discarded outer leaves.

**Packed in a 42ct box** (as opposed to the 32ct Church Box), not only does Andy Boy Gem match in quality, but it also exceeds the competition in value. Do a side-by-side-by-side comparison today, and you'll notice the advantages of Andy Boy Baby Gem lettuce.

## SUMO MANDARIN ORANGES
